

SERVING OKLAHOMA & NORTHEAST TEXAS

TeleMonitoring

HomeCall is utilizing the most current technology in order to provide a new standard of home care with daily monitoring of vital signs. HomeCall can place the TeleMonitor in the patient's home and provide the physician with trend reports of blood pressure, heart rate, blood oxygen level, weight and even blood sugar level and temperature if needed.

*TeleMonitors may not be available in all areas.

HOME CARE SERVICES FOR ALL AGES

YOU MAY QUALIFY FOR HOME HEALTH...

- If you have difficulty leaving home.
- If you are calling or making frequent trips to the physician's office.
- If you have recently been discharged from the hospital.
- If you have wounds that are not healing or are frequently infected.
- If you need periodic blood work.
- If you are an unstable diabetic.
- If you have been prescribed new medications.
- If your blood pressure fluctuates.
- If you are coming home from a nursing home, Medicare may pay for continued therapy in your home.

"The nurses were Angels sent from God..."

James Blanton
Home Care Patient
Hendrix, OK

HomeCall does not discriminate on the basis of race, color, national origin, age, sex, or handicap in admission, access to treatment, or employment, in its programs or activities. The Human Resources Director has been designated to coordinate all efforts to comply with Section 504 of the Rehabilitation Act of 1973 and its implementing regulation which prohibits discrimination on the basis of handicap.
